As a result, our actual results may differ materially from those contemplated by any forward-looking statements. Important factors that could cause actual results to differ materially from those in the forward-looking statements include the inability to recognize the anticipated benefits of the acquisition of Angelo Gordon; unexpected costs related to the integration of the Angelo Gordon business and operations; our ability to manage growth and execute our business plan; and regional, national or global political, economic, business, competitive, market and regulatory conditions, among various other risks discussed in the Company's SEC filings.

For the reasons described above, we caution you against relying on any forward-looking statements, which should be read in conjunction with the other cautionary statements included elsewhere in this press release and risk factors discussed from time to time in the Company's filings with the SEC, which can be found at the SEC's website at <http://www.sec.gov>. Any forward-looking statement in this presentation speaks only as of the date of this press release. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them.
